FINDING SOMEONE BEAUTIFUL IN THE SPA... YOU!

The Cove Spa, St Albans, is a haven of tranquillity and relaxation where traditional rituals are a 'must-experience'. This amazing customer journey is now available at the BodyMagic Spa in Hitchin. Early in the New Year, BodyMagic will be rebranded to The Cove Spa, Hitchin.

A Bushey couple have surprised themselves after their sumptuous spa scooped a top industry award. Vikee Patel, who co-directs The Cove Spa in St Albans with her husband Krupesh Patel, got a very pleasant surprise when they received an invitation to the Coolherbals British Beauty awards. The couple travelled to The Grand Connaught Rooms in London where the event was held this year, to discover that they have won the title 'The Most Commendable Spa/Salon 2013'.

Mrs Patel was presented the award at the ceremony by TV presenter Helen Shepherd, alongside the managing directors of Coolherbs Rami and Sushma Bhanot. Vikee said "The win was a very pleasant surprise for us! We had an email saying that our name had been nominated for this award (without us having applied), however we never expected to win. We have come to the conclusion that a secret team may have come over to the spa to test the treatments and to monitor the level of customer service. I can only guess that is why our name was put forward."

When Mr and Mrs Patel were asked why they think the spa beat over 1,000 spas to win the award, they mentioned that it could be down to them offering a traditional style spa, rather than following the masses in addition to thinking about what

Vikee also commented saying "We have excellent customer service and an infra-red room which is similar to a dry steam sauna; it is really good for the skin and muscles! We also have a unique couples room, which means you can have treatments as a pair rather than having to wait for one and other."

Putting customers first is exactly what Vikee and Krupesh have in mind for The Cove Spa in Hitchin. This spa offers disabled access and a unique Thermal Suite comprising of a monsoon shower, steam room, aromatherapy suite and relaxation lounge.
